

Product Change Notification—PCN# 000939

September 05, 2022

Dear Valued Customer,

We would like to inform you that Moxa is going to make changes to the VPort P06-1MP-M12 Series. These changes will be implemented by September 30, 2022. Please review the details below to determine how these changes will affect your products and/or operations.

What will change?

Some of the key components of the VPort P06-1MP-M12 Series IP camera have been discontinued and we have made modifications to the hardware and software to ensure these component changes are compatible.

The following changes will be implemented on the VPort P06-1MP-M12 Series V2.0.0:

- Replaced the image sensor, Ethernet PHY, and some capacitors
- Added one functional grounding screw hole on the bottom case, and one grounding screw in the accessory package
- Upgraded the certifications CE/ FCC/ EN50155/ EN45545-2 to the latest version
- Upgraded to UL 62368-1
- Updated the quick installation guide and user's manual

In addition, a new firmware v3.0 will be released for these new product versions, which contains the features listed below:

- Upgraded the default account authentication method to enhance network security
- Supports Moxa's MXconfig network configuration tool
- Removed the alarm notification via Email and the DDNS function as there were network security and authentication issues

Please note that firmware v3.0 can also be used for previous product versions.

Which products will be affected?

Product Name	Current Version	New Version
VPort P06-1MP-M12 Series (excluding VPort P06-1MP-M12-CAM28 Series)	V1.1.4	V2.0.0
VPort P06-1MP-M12-CAM28 Series	V1.0.0	V2.0.0
VPort P06-1MP-MIC-M12-CAM28 Series	V1.0.0	V2.0.0
VPort P06-1MP-MIC-M12 Series (excluding VPort P06-1MP-MIC-M12-CAM28 Series)	V1.2.4	V2.0.0

When will the new versions be available?

Product Name	New Version	Available for Order
VPort P06-1MP-M12 Series	V2.0.0	November, 2022
VPort P06-1MP-MIC-M12 Series	V2.0.0	November, 2022
