

Product Change Notification—PCN# **PCN000933**

February 17, 2023

Dear Valued Customer,

We would like to inform you that Moxa is going to make changes to UC-2100 Series of Arm-based computer. These changes will be implemented February 17, 2023.

Please review the details below to determine how these changes will affect your products and/or operations.

What will Change?

Operating System

- Updating Moxa Industrial Linux to version 1.1.1. For the release note of MIL 1.1.1, please refer to https://docs.moxa.online/mil/MIL/MIL111/MIL111_UC-2100_UC-2100-W_ReleaseNote

Bootloader

- Supports Admin password for Bootloader configuration menu to enhance security.
- Adding an option to install OS image from USB
- Adding an option to boot from a USB drive.

Important Notice

The new product revision v1.2.0 cannot install previous OS Image v1.11 or before. If you already have a customized image that was build based on previous OS image version, we recommend you to perform APT update first following [How to Keep Moxa IIoT Gateway Software Up-to-date](#), then build an updated image by referencing instructions from <https://github.com/Moxa-Linux/resize-image>

Which products will be affected?

Product Name	Product Revision		OS Image Version		Bootloader Version	
	Current	New	Current	New	Current	New
UC-2100 Series	V1.1.0	V1.2.0	V1.10	V1.12	v1.5	v1.6

Note: Product Revision is the **Rev.** number printed on the sticker of a Moxa Arm-based computer

Important

Moxa Inc.

13F, No. 3, Sec. 4, New Taipei Blvd., Xinzhuang Dist.
New Taipei City 242032, Taiwan, R.O.C.

Tel: +886-2-8919-1230

Fax: +886-2-8522-8623

www.moxa.com

When will the new versions be available?

The new model revision is estimated to be available after February 17, 2023. Depending on the demand for the reviewed version and stocks lasting, we could push the estimated available date either forward or back.

If you have any questions, please contact Joe Lin (joesc.lin@moxa.com), or contact your regional sales representative.
