End of Life of PS-240-P4G

We regret to announce the discontinuation of the PS-240-P4G from our product lineup.

The PS-240-P4G, although it was recently launched, will be phased out immediately to avoid complications down the line. Our new Lynx 3510 PoE presents a viable alternative, reducing the need for a DIN-mounted PoE Injector and Power Supply unit. This decision arises from a shift in our technology supplier's strategy, leading to an unexpected situation.

Westermo is committed to assisting you during this transition. Customers, distributors, and sales units have the option to return purchased PS-240-P4G units for a full refund.

Part number	Sales part description	Discontinuation date	Replaced by, part number	Replaced by, part description
3125-0100	PS-240-P4G	2023-08-31	n/a	n/a
